

Increasing Access to Education

Talent is global, opportunity is not. We bridge this gap with advanced education, accessible to learners where they live and work. No tuition or fees. Just quality online academic offerings.

Who We Are

A virtual, global community that builds quantitative and technology skills for lifelong learners.

What We Offer

Graduate degree and certificate programs designed by industry experts to prepare learners for high-impact careers.

- Master of Science in Financial Engineering
- Applied Data Science Lab
- Deep Learning Fundamentals Lab
- Computer Vision Lab

Who We Serve

We educate people globally, allowing them to grow without the burden of student loans or geographic limitations.

WorldQuant University provided a great opportunity for me.

Diana Zhao, MScFE '25
Portfolio Valuation Manager, China

Meet Our Founder

“As an immigrant and entrepreneur, I have long understood the outsized value of opportunity. I founded WorldQuant University to scale impact by bringing high-quality, applied education to thousands.”

Igor Tulchinsky

Founder, Chairman & CEO, WorldQuant

Expanding Opportunity Since 2015

Igor Tulchinsky worked as a venture capitalist, programmer, and data scientist before starting WorldQuant, a quantitative investment firm with more than 20 offices in 16 countries.

He founded WorldQuant University in 2015 to help launch similar careers worldwide. The goal is to remove the two most common barriers to talent distribution: Cost and geography.

Partner with Us and Grow

Together we can develop a diverse group of learners who contribute to industries, governments, and communities worldwide by making quant and technical skills accessible.

Industry and Government Collaboration

Recruitment

Attract bright minds. Tap into our diverse and global talent pipeline.

Retention

Foster loyalty, increase job satisfaction, and provide career advancement paths for your team with professional development programs from WorldQuant University. Customized solutions are available.

Reputation

Collaborate with a purpose-driven organization and help drive opportunities for equitable advancement.

Academic Collaboration

Dual Degrees

Students can earn credentials from their home institution and WorldQuant University.

Program Preparation

Our applied labs can prepare students for your graduate degrees.

3+1 Programs

Give your students a path to a bachelor's and a master's degree in four years.

Blended Learning

Students can receive online instruction on our platform while attending classes on your campus.

“ Whether you are hiring talent, investing in current employees, or educating the next generation of global leaders, WorldQuant University has solutions. Together, we can leverage our unique assets to develop mutually beneficial outcomes for scalable impact.

Gbemi Disu

WQU Senior Vice President
of Global Partnership Development
