

Rigorous | Accredited | Global | Tuition-Free

# Increasing Access to Education

Talent is global, opportunity is not. We bridge this gap with advanced education, accessible to learners where they live and work. No tuition, fees, or debt. Just quality online academic offerings.

## Who We Are

A virtual, global community that builds quantitative and technology skills for lifelong learners.

## What We Offer

Graduate degree and certificate programs designed by industry experts to prepare learners for high-impact careers.

- Master of Science in Financial Engineering
- Applied Data Science Lab
- Deep Learning Fundamentals Lab
- Applied AI: Computer Vision Lab

## Who We Serve

We educate people globally, allowing them to grow without the burden of student loans or geographic limitations.

I chose WorldQuant University because of the amazing content that the program offers for free.

**Ian Thairu, MScFE '25**  
Senior Audit Associate, Deloitte,  
Kenya

## Meet Our Founder

“As an immigrant and entrepreneur, I have long understood the outsized value of opportunity. I founded WorldQuant University to scale impact by bringing high-quality, applied education to thousands.”

### Igor Tulchinsky

Founder, Chairman & CEO, WorldQuant

## Expanding Opportunity Since 2015

Igor Tulchinsky worked as a venture capitalist, programmer, and data scientist before starting WorldQuant, a quantitative investment firm with more than 20 offices in 16 countries.

He founded WorldQuant University in 2015 to help launch similar careers worldwide. The goal is to remove the two most common barriers to talent distribution: Cost and geography.

# Partner with Us and Grow

Together we can develop a diverse group of learners who contribute to industries, governments, and communities worldwide by making quant and technical skills accessible.

## Industry and Government Collaboration

### Recruitment

Attract bright minds. Tap into our diverse and global talent pipeline.

### Retention

Invest in your employees with professional development programs. Customized solutions are available.

### Return on Investment

Give your teams access to rigorous applied learning, delivered at a low cost per student.

### Reputation

Lead with purpose, and drive opportunities for equitable advancement.

## Academic Collaboration

### Dual Degrees

Students can attend complementary programs and earn credentials from two institutions.

### Program Preparation

Our applied labs can prepare students for your graduate degrees.

### 3+1 Programs

Give your students a path to a bachelor's and a master's degree in four years.

### Blended Learning

Students can receive world-class online instruction on our platform while attending in-person classes on your campus.

Whether you are hiring talent, investing in current employees, or educating the next generation of global leaders, WorldQuant

University has solutions. Together, we can leverage our unique assets to develop mutually beneficial outcomes for scalable impact.

### Gbemi Disu

WQU Senior Vice President  
of Global Partnership Development
